ARIEL DUNN

PRODUCT MANAGEMENT & ENTERPRISE TECHNOLOGY LEADER

United States | Remote | Open to Relocation | arieldunn@me.com | (318) 580-2074 | LinkedIn

Product Strategy | Enterprise Applications | Data & Integrations | GenAI Enablement | HR Technology | Launch & Adoption

PROFILE

Product-minded enterprise technology leader with 7✦ years of experience translating complex business needs into scalable platform experiences, workflows, data structures, integrations, automation, and reporting. Led or supported 50✦ CRM and enterprise platform transformations and 87✦ client engagements across healthcare, life sciences, education, payments, nonprofit, higher education, B2B commerce, and services. Experienced across the full product lifecycle—from stakeholder and user discovery, requirements, prioritization, and roadmap development through technical delivery, testing, launch, training, adoption measurement, and continuous improvement. Brings direct HR technology exposure from Paychex and current experience applying GenAI-assisted workflows, knowledge readiness, and data-governance principles to enterprise platforms.

PRODUCT & TECHNOLOGY IMPACT

- Led discovery-to-launch workstreams for enterprise platform initiatives, translating user pain points, business goals, and data needs into product requirements, priorities, phased roadmaps, release decisions, testing plans, and adoption programs.
- Supported 50+ CRM and enterprise platform transformations and 87+ client engagements across vendor-managed platforms, connected third-party systems, integrations, automation, reporting, governance, and custom business workflows.
- Defined cross-system data requirements, lifecycle rules, mappings, routing logic, reporting models, and governance standards to improve data quality, visibility, traceability, and downstream decision-making.
- Enabled 200+ users through launch planning, training, documentation, onboarding, change management, and feedback loops across sales, marketing, service, operations, and leadership teams.
- Advised senior stakeholders on product and platform strategy, competing priorities, GenAI-assisted workflow opportunities, adoption, reporting maturity, and scalable operating models across $100M+ aggregate pipeline environments.

CORE CAPABILITIES

Product Strategy & Roadmaps | Product Requirements | Prioritization | Stakeholder & User Discovery | Enterprise Applications | Vendor-Managed Platforms | Data Flows & Governance | Systems Integration | APIs & Webhooks | Technical Tradeoffs | GenAI Enablement | Testing & Launch | Adoption & Product Performance | Change Management | Executive Communication | HR / Payroll Workflows & Data

PROFESSIONAL EXPERIENCE

PYXIS GROWTH PARTNERS | HubSpot Diamond Partner | Remote

Strategic Account Manager | Mar 2026-Present • Senior HubSpot Platform Consultant | Oct 2023-Mar 2026 • HubSpot Platform Consultant | Jan 2022-Oct 2023

- Serve as a strategic product and systems partner to executive and functional stakeholders, shaping platform roadmaps, prioritizing competing needs, and translating business strategy into scalable product requirements across enterprise applications, data, automation, reporting, and integrations.
- Lead discovery with leaders and end users to understand workflows, pain points, data dependencies, adoption barriers, and desired outcomes; synthesize findings into requirements, priorities, phased roadmaps, acceptance criteria, and implementation decisions.
- Own and co-own enterprise platform workstreams spanning vendor-managed HubSpot applications, Salesforce and other connected systems, integrations, platform-native capabilities, and custom business workflows; maintain a working understanding of how data, permissions, lifecycle logic, reporting, and automation interact across the ecosystem.
- Partner with technical teams on APIs, webhooks, migration logic, integration requirements, edge cases, product testing, and implementation tradeoffs, balancing user experience, scalability, technical constraints, business value, and delivery timing.
- Drive cross-functional decisions during acquisition and systems-integration initiatives by aligning data models, user access, process definitions, reporting requirements, governance controls, and rollout dependencies across previously disconnected environments.
- Design, test, launch, and iterate workflow automation for routing, segmentation, notifications, nurture, customer feedback, onboarding, data quality, operational handoffs, and internal task management; refine solutions using performance data and stakeholder feedback.
- Build executive reporting and adoption views that surface usage, conversion trends, operational KPIs, data quality, and process performance; use insights to identify gaps, prioritize improvements, and continuously improve platform experiences.
- Lead end-user rollout, training, documentation, and change-management programs for 200+ users, improving platform confidence, process consistency, and adoption across multiple departments.
- Advise clients on GenAI-assisted workflow optimization, knowledge readiness, platform capabilities, governance considerations, and practical use cases for more automated customer- and employee-facing experiences.

PAYCHEX | Baltimore, MD

SMB Consultant | Oct 2019-Jan 2021

- Advised small and mid-sized businesses on payroll, HR, compliance, workforce, and operational solutions, using discovery to understand employer needs, employee lifecycle processes, and technology requirements before recommending scalable technology-enabled services.
- Built working knowledge of HR and payroll workflows, employer and employee data requirements, compliance considerations, and operational dependencies across hiring, pay, workforce administration, and employee lifecycle events.

- Coordinated with business owners, accounting professionals, banking partners, and internal specialists to align requirements and solutions across multiple stakeholders, systems, and service workflows.

MARKETSMART | Maryland

Business Development Associate | Feb 2019-Sep 2019

- Improved lead conversion by 20% through targeted engagement strategies, optimized cadences, and stronger use of HubSpot analytics, reporting, and CRM data.

CLEARONE ADVANTAGE | Washington, DC / Baltimore Area

Account Manager | May 2017-Feb 2019

- Managed 100+ client accounts, analyzing complex customer situations, coordinating issue resolution, and maintaining high-touch communication across the client lifecycle.
